

Hashing

Hashing some text

Run in terminal

```
echo -n "Hei TBB" | md5sum  
echo -n "Hei TBD" | md5sum
```

See the difference

Hashing a file

We have two small imagefiles, picture1.jpg and picture2.jpg. Source: Photo by Thomas Kelley on Unsplash.

picture1.jpg is almost identical to picture2.jpg, but picture2 has a changed pixel.

Show the pictures and then run in terminal

```
md5sum picture1.jpg  
md5sum picture2.jpg
```

See the difference
